

HOLY ANGELS CONVENT SCHOOL

Higher Secondary School

Selected 2010-12

Recent Developments:

Principal: SR. PREMILA

Year of Establishment of School: 1963

Our School:

Is the most sought after and committed school of this city. It was started by the Carmelite Sister of St. Teresa on 8th July 1963 and since then is making continuous strides in the holistic development of its children. It is fortunate to be the second home and learning abode of about 3000 students and 80 teaching staff. It provides commendable infrastructure in the form of neat, airy classrooms, sports facilities and well trained and experienced staff. It strives to create a community of future citizens who respect and follow genuine moral, spiritual and human values and are academically inclined.

Activities:

The school is a bee hive of activity all the year round. For the development of interest in their mother tongue – a Hindi extempore, poetry antakshari, one act play with a patriotic theme and reading activities have been conducted in Hindi in the academic year 2010-11 till September 2010. Interhouse sports competitions, folk dance, religious and patriotic songs, etc. are part of the annual schedule of activities.

The school is proud to have added a new building and superb auditorium to its infrastructure. In accordance with CCE several new activities have been made part of the school curriculum. In every class projects, plays dialogues, extempore and quizzes are conducted regularly in Hindi. Through clubs like the Taru Mitra (Eco Club), Universal Solidarity Movement (USM), Social Action Club the school is conducting several outreach programmes.

Facilities and Motivational plans for Teachers (staff):

The school provides all facilities as envisaged by the government for its staff. Educational development is encouraged. Regular seminars, workshops and courses are conducted to keep the staff in touch with latest developments in the field. To keep the moral and motivational level of its staff high incentives and other activities are regularly organized.

Your mantra (secret, steps) to build futures of India:

Our secret lies in our vision, in being committed to offer an education that is humanizing and liberative, in empowering the poor and marginalized to build an India based on inclusive ideals. (The school runs a

section in classes upto the 5th in the Hindi Medium for underprivileged children). We firmly believe that India needs more people that love her and not merely themselves. We work and strive towards this.

Future plans:

We hope to conduct leadership development programmes for our children. We want to give them first hand experience of this vast country and expose them to its diverse cultures. We aim to conduct lots of exams, seminars and activities which will draw them

away from present materialistic values. We wish to draw them away from bookish learning and learn to think logically and originally.

Social awareness: Our children are exposed to life in slum areas, old age homes and orphanages through regular visits. On special occasions they go to the district jail perform activities and culture programmes for the inmates and distribute eatables among them. They also go to the local leper's colony to empathize themselves towards their plight. They teach the underprivileged children studying in their school.

Prouddable things about school:

Our school is an island of values and discipline in the increasingly in disciplined society of today. We are also proud of our commitment and dedication towards our goals and ideals. Above all we are proud of the children we send out to build the India of our dreams.
