# Water Resources

**Market:** ICT has built its reputation on sustained expert professional advice and by providing high quality service after understanding the clients needs and meeting their expectations on time and within budget. With multi disciplinary teams working hand in hand ICT provides a full range of professional services in various domains.

**Recent Developments:** Successfully completed 25 years in the infrastructure industry in February 2012. Also operating internationally with presence in 35 Countries viz Afghanistan, Bangladesh, Bhutan, Burkina Faso, Cambodia, Cameroon, Central African Republic, Egypt, Ethiopia, Fiji, Ghana, Gambia, India, Indonesia, Kenya, Lao PDR.

**Expansion Plans:** ICT has established a separate division for design and construction supervision of Metro Railways, which has assumed an integral and significant part of the growing urban India. Besides to mitigate the economic and human losses arising out of road accidents, ICT has initiated measures and actions along with the International Road Federation and Ministry of Road Transport and Highways, Government of India, to inculcate road safety measures in all stakeholders through public awareness building introduction to intelligent traffic system and other means.

**Facilities for staff:** At our corporate office and site offices, proper well equipped recreation rooms exist. Here staff members can usefully spend their lunch and tea hours. Sports competitions are held periodically and participation by the staff members is encouraged.

**Corporate Social Responsibility:** ICT as a corporate house has initiated several activates in areas such as environmental policies, social safeguard polices, corporate contribution, community development, corporate governance and workplace issues in several countries. While working on various products funded by the World Bank and other financial institutions in various African countries ICT endeavors to protect the Environment and help safeguard the social concerns as per prevailing guidelines of the international agencies.

**Salient features:** To develop ICT as a premier international consultancy organization by continually striving to provide eco-friendly solutions, adopting state of the art practices and a commitment to quality through skilled human resource. We deliver what we promise and add value beyond what is expected. Teamwork – the best solutions come from working together with colleagues and clients. We develop leadership qualities at various levels of the company's hierarchy.
