

Ripple Technologies

Selected 2011-13

Reverse Engineering

CAD/CAM Designing

Prototyping

Precision Machining

Name of the Director: Mr. Harish P.

Established : 2004-05

Product: Re-Engineering, 3D Laser Scanning, Cad-Cam services and manufacturing.

History of the Company: Started my career in 2004 with a strong vision of having a full fledged infrastructure which can support all kinds of industrial needs. In the process we started a company in the name of Ripple Technologies with an investment of ₹. 5000.00 giving services on Cad/Cam support to companies like Kennametal, Honeywell, HCL, BEML, and BEL.

In 2005-06 we set up our first centre to start manufacturing of proto types for companies like Honeywell, HCL for their aerospace projects; we had a small team of diploma holders.

In 2010 we started our new company in the name of Ripple Engineering Services supporting the needs of engineering services. By now we had a good base for an ideal engineering industry like reverse engineering, designing, manufacturing and validation. We can proudly claim we are the only small-scale industries having this kind of manufacturing infrastructure to manufacture products with drawing or without a drawing.

Any kind of product given to us can be reverse engineered, designed and manufactured in house.

In 2011 we started our branch office in Chennai (Tamil Nadu) for engineering services.

Recent Developments

: Started our first branch office in Chennai (Tamil Nadu).

Aims: To become one of countries biggest aerospace industry with a full fledge manufacturing setup.

Further Expansion Plan:

By 2013 we will be opening a new company in the name of Ripple Aerospace , bringing Ripple Technologies and Ripple Engineering Services under one group name called as Ripple Group with an investment of Rs. 10-15 cr. The main objective

Achievements: We started our office in 2004, with an investment of Rs. 5000.00

- In 2005 we started our company with our own machinery with a small team of 3 members.
- In 2008 the team was built to 12.
- In 2010 started one more company in the name of Ripple Engineering Services with team strength of 25.
- In 2011 started our first branch office in Chennai (Tamil Nadu) now our team consists of 30 members.

of this industry is to manufacture jigs and fixtures for Aero Structures and also make aero structural components.

Recreation facilities for staff members: Once in 6 months a one-day outing is planned batch wise for the team. Small cash rewards are also distributed based on performance.

Marketing Strategies: WEB MARKETING AND B2B PROTOCOLS.

Mantras to become successful entrepreneur : Have a vision, work on the path towards your vision and never be behind monetary benefits. Be spontaneous to the given situation.

Brand Values: Complexity, Creativity, Manufacturing feasibility, Quality and Integrity. A forum for all engineering needs.
