

TATA MEMORIAL CENTRE

Director : Dr. Rajendra Achyut Badwe

Established: 1941

Products: Tertiary care Cancer Centre in India. The objective of the centre is to provide comprehensive care in the field of cancer. This includes prevention and early detection, multidisciplinary treatment facilities, rehabilitation and palliative care.

History: The Tata Memorial Hospital was initially commissioned by Sir Dorabji Tata Trust on 28 February 1941 as a center with enduring value and a mission for concern for the Indian people. In 1952 the Indian Cancer Research Centre was established as a pioneer research institute for basic research - later it was called the Cancer Research Institute (CRI). In 1957 Ministry of Health took over the Tata Memorial Hospital. The transfer of the administrative control of the Tata Memorial Centre (Tata Memorial Hospital & Cancer Research Institute) to the Department of Atomic Energy in 1962 was the next major milestone. The Tata Memorial Hospital and Cancer Research Institute merged as the two arms of the Tata Memorial Centre (TMC) in 1966 as a classic example of private philanthropy augmented by Government support with a mandate for Service, Education & Research in Cancer

Achievements:

- ☉ Centre of Excellence in the field of cancer
- ☉ International collaboration in cancer genomics for Basic and translational research
- ☉ Start of doctoral fellowship, for the first time in cancer epidemiology in India
- ☉ Training 60% of Human resource for managing cancer in India.
- ☉ Start of fellowships in focused specialties to increase precision of treatment delivery.
- ☉ International Peer Review of the centre was undertaken to benchmark the efforts and performances by a panel of eminent oncologists and research.
- ☉ Establishment of Disease Management Groups
- ☉ Commission of Homi Bhabha Block with improved patient amenities. Inaugurated by Dr. A. P. J. Abdul Kalam, Former President of India on March 2, 2011
